

84 FS Cheetah Pistol

84 FS Cheetah Pistol

The 84 FS Cheetah is a 9mm short caliber double-action pistol with staggered magazine and manual safety with hammer decocking device. The magazine release is reversible, and the enlarged combat trigger guard provides support for a two-handed hold or use with gloves.

This medium frame pistol features a corrosion-resistant anodized alloy frame with matte black finish and chromium-plated bore. Other features include, ambidextrous manual safety, disassembly latch, chamber loaded indicator. The 84 FS Cheetah delivers power in a personal size package and maintains the reliability, safety and performance features of Beretta's legendary 92 FS.
