300 Win Mag Ammunition Cartridge, 235A Bullet

Cartridges

Sako cartridges have been developed for maximum accuracy, performance and reliability. Uniform quality is achieved by using only components and materials of highest quality as well as by uncompromising quality control and continuous testing.

Packaging

Military and Law Enforcement cartridges are packed to M2A1 metallic ammunition cans to meet military requirements. The box of 20 rounds exceed specification of MIL-B-3060E. It is labeled with caliber, quantity, and manufacturing date and lot number. All cartridges (Div. 1.4S, UN 0012) are packed according to International Air Transport Association (IATA) regulations.

Testing and Product Development

Continuous field tests and ballistic laboratory tests will guarantee the maximum accuracy, performance, stopping power and reliability for Sako Military and Law Enforcement cartridges. Thanks to close co-operation with our customers, Sako can offer better solutions for future challenges and develop new products for demanding applications.
