

# Mk4 Battle Light

Weapon-Mounted White Light LED

STEINER 

Weapon-mounted white light LED

## Multiple Configurations Available

Shown with included weapon mount and remote activation cable

The modular, low-profile design of this 500-lumen weapon light provides interchangeable switch options and places the light close to the weapon body, nearly eliminating the rifle barrel shadow and enhancing weapon-handling. It can operate on two CR123A batteries or one rechargeable lithium ion battery (sold separately).
