## Single Beam Aiming Laser Pistol Light

**SBAL-PL, Single Beam Aiming Laser Pistol Light**

The SBAL-PL combines a battlefield proven green laser aiming module with a new, high output, 500-lumen white-light illuminator for rapid target acquisition and aiming. The SBAL-PL's low-parallax allows the operator to minimize the differential between point-of-aim and point-of-impact for increased accuracy at varying ranges.
