NEW: ROTTWEIL extends its international Defence & Law Enforcement portfolio significantly

The prestigious ammunition brand ROTTWEIL known for its shotshell products launches fourteen (14) different product solutions for law enforcement and security agencies as well as special forces. Besides door breaching cartridges, ROTTWEIL's portfolio now also carries a slug, buckshot, training as well as an anti-drone (C-UAV) range meeting the remarkably increasing demand for respective products and boosting the DLE portfolio of the German brand substantially.

Shotguns have been part of the arsenal of armies and police units for over a century. Even today, shotguns remain standard issue for armed forces and police forces worldwide. The range of applications is vast, but the choice of ammunition remains crucial to the desired effect. The new ROTTWEIL DEFENCE & LAW ENFORCEMENT product line provides professional users with suitable ammunition that can be deployed effectively and cost-efficiently for a wide variety of purposes.

ROTTWEIL's offer now encompasses three (3) slug, five (5) buckshot, two (2) training, and four (4) C-UAV cartridges.

- The three slug loads feature an outstandingly impactful 12/76 Brenneke Magnum EDP load with 38g for hard targets, one in 12/70 with 32g, and one in 12/67.5 with 28g, The latter two are both designed for soft targets.
- The five buckshot products come in two calibres: four in 12/70 calibre ranging from 32g (21 pellets #3) to 30g (9 and 8 pellets, #0 and #00 respectively) down to 20.5g (9 pellets #0) plus a 12/67.5 calibre in 18g (9 pellets #1). The latter two products have copper loads.
- The new training range of ROTTWEIL includes a steel and a hard lead product, in calibre 12/70 with 31g (#1) and 34g (#5) respectively.
- Three out of the four anti-drone or C-UAV product solutions come all in 12/70 calibre with two copper loads in 34g (#4 & #6), and the third one with hard lead in 34g (#4). The fourth round is a lead load in 12/70 calibre featuring a special construction ensuring a tight and stable pattern effectively engaging drone targets.

The cartridges are suitable for use in both bolt-action and semi-automatic shotguns across all loadings. The use of high-quality, specially matched components and designs ensures reliable performance in a wide range of applications. Both requirements as well as product features are and will be defined in close collaboration with customers and users worldwide.

The international Eurosatory show, the global event for defence and security in Paris, France, offers the perfect platform to present the new portfolio to a selected professional audience.

More detailed information can be found in the attached product information sheets, at the booth #D177 of Beretta Defense Technologies (BDT) in hall 6 during this year's Eurosatory show as well as [here](#) on the website of ROTTWEIL's brand and trademark owner, RWS based in Fuerth, Germany.

The roots of the brand **Rottweil** go way back in time: the foundation of the black powder factory in Rottweil am Neckar in the Black Forest dates back to the 15th century. The brand name refers to the former production site of shotgun shells in the respective German city. Rottweil became famous thanks to the red Waidmannheil hunting load and has remained so since 1921 benefitting from the legendary status of the "black Waidmannheil" with its paper case. Ever since, Rottweil shotgun shells have been consistently manufactured with extreme care enabling to shoot safely and successfully.

RWS GmbH is one of the leading international manufacturers of small-calibre ammunition, ammunition components and pyrotechnic elements for hunting, sporting and industrial applications as well as for government, military authorities and agencies. The company, founded in 1886 as Rheinisch-Westfälische Sprengstoff-Actien-Gesellschaft, has been part of Beretta Holding since 2022. RWS GmbH owns the brand ROTTWEIL and respective trademarks. Further information on RWS GmbH <https://www.rws-technology.com/en>

With more than 50 global subsidiaries, **Beretta Holding Group** stands as a world-renowned leader with a distinguished reputation in the fields of hunting, sports shooting, and defense & law enforcement sectors thanks to its wide selection of premium products.
